The IEEE Transactions prepared under the auspices of the IEEE Signal Processing Society publish original, comprehensive, in-depth technical papers for knowledgeable readers including researchers and practitioners. The papers are of long-range interest and are significant to the signal processing and related disciplines. All submitted papers undergo multiple, rigorous, "blind" peer review. The transactions are:

IEEE Transactions on Signal Processing
IEEE Transactions on Speech and Audio Processing
IEEE Transactions on Image Processing
IEEE Transactions on Multimedia (a joint publication of the IEEE Circuits and Systems, Signal Processing, Communications, and Computer Societies)
IEEE Journal of Selected Topics in Signal Processing
IEEE Transactions on Information Forensics and Security
IEEE Transactions on Computational Imaging
IEEE Transactions on Signal and Information Processing Over Networks

Please answer the following questions as a guide to your comprehensive review below. The paper will be evaluated based on how you justify each of your answers. An answer without explanation carries very little weight. In your comprehensive review, please also include a short paragraph that paraphrases the paper.

A. Suitability of Topic

1. Is the topic appropriate for publication in these transactions?

B. Content

1. Is the paper technically sound?

2. How would you rate the technical novelty of the paper?

3. Is the contribution significant?

4. Is the coverage of the topic sufficiently comprehensive and balanced?

5. Rate the Bibliography

C. Presentation

1. How would you rate the overall organization of the paper?

2. Are the title and abstract satisfactory?

3. Is the length of the paper appropriate? If not, recommend what should be added or eliminated.

4. Are symbols, terms, and concepts adequately defined?

5. How do you rate the English usage?

^{req} Recommendation

A - Publish Unaltered

AQ - Publish With Minor, Required Changes

RQ - Review Again After Major Changes

R - Reject
